

Flash Cards

1. Cut around the edges of the two columns.
2. Fold each column in half and press the crease down firmly.
3. Open it up and glue the blank side.
4. Stick the two halves back together so you have the name on one side and symbol on the other.
5. Repeat this for the other columns.
6. Cut each element out separately.
7. Each card can be hole punched and then tied together in a bundle.

H	hydrogen	O	oxygen
He	helium	F	fluorine
Li	lithium	Ne	neon
Be	beryllium	N	nitrogen
B	boron	Mg	magnesium
C	carbon	Si	silicon
Na	sodium	P	phosphorus
S	sulfur	K	potassium
Ar	argon	Ca	calcium

U	uranium	Au	gold
Hg	mercury	Ag	silver
Pb	lead	Cu	copper
Ni	nickel	Fe	iron
Zn	zinc	Sn	tin
I	iodine	Al	aluminium
Cl	chlorine	Ti	titanium
Cr	chromium	Mg	manganese
Co	cobalt	Br	bromine
Kr	krypton	Ba	barium
Pt	platinum	As	arsenic
